Yves Bazile

Yves Bazile is a church planter in Paris who ministers to second generation French-speaking immigrants from Africa and the Caribbean.

My ministry is mainly evangelization, teaching, and church planting.

I answered the call to do ministry in France with the conviction that God wants to use my French background and culture to reach the lost here. Our outreach in the greater Paris area has resulted in successful church planting which is well established and growing for the past 16 years.

Our continued goal is to still reach young people, especially those who are second generation immigrants of the French Caribbean Islands and Africa.
