

Gabriel and Marcella Gombos

From stories of family heart surgeries to Gospel ministry, our testimony brings hope and God's grace to Romania.

Our family of eight serves in Oradea, Bihor, Romania where we partner with local believers to share the Gospel through village church ministry, pro-life outreach, and family support.

Two of our six children were born with congenital heart defects and underwent open-heart surgeries. God's faithfulness to us has shaped our ministry to others. Through these experiences, God has given us a passion to encourage families facing their own medical challenges. We provide practical support in the way of prayer, encouragement, food, supplies, and essential resources—all while demonstrating the love and hope of Jesus Christ.

God has used our family's testimony to bring hope to others. One family was ready to leave the church after their daughter was born with a heart defect. Through prayer, counseling, and encouragement, God restored their faith. Today, the husband serves as a deacon, and the family serves together. Through preaching, sharing our testimony, and distributing Bibles, we have seen many turn to Christ.

We are partnered with local believers and Maranatha Pentecostal Church's to reach communities with the Gospel. Our ministry also includes visiting village churches, encouraging pastors and congregations, and helping families with food, clothing, baby supplies, and other necessities.
