Don Seeders

Don Seeders is active in bringing the Gospel to the people of Peru through evangelism and the training of local ministers.

As an Ordained Bishop with the Church of God and a short-term missionary with Church of God World Missions, I have a passion for missions. I have served in missions for over two decades. God has given me a real burden for the last, the least, and the lost.

Although I have traveled extensively in missionary work, currently I feel called primarily to the people of Peru. It is my desire to evangelize those who haven’t heard the gospel of Jesus Christ. I feel that training local pastors and youth to be missionaries in their own homeland is one of the greatest ways to be effective in missions. Also, we are active in medical missionary work for the poor of Peru by utilizing Peruvian doctors and other nationals working in the medical field.
