Stephen and Courtney Shupe

Our family is called to build meaningful relationships, meet practical needs, and make Jesus known among the nations.

Our ministry is centered on sharing the love of Jesus through evangelism, discipleship, teaching, and meeting practical needs. We serve locally through our church and globally through building relationships with individuals, families, and communities. Through preaching, encouragement, healthcare, education, and outreach, we seek to share the Gospel, equip believers, and partner with local leaders to strengthen the Kingdom of God. Our heart is to go wherever God leads, love people well, and make Jesus known through both word and action.

Our family believes that missions is a calling we are meant to live out together, not simply a place we travel to. We desire to use the gifts and experiences God had given us to open doors for the Gospel. Wherever God leads, our prayer is to be willing, available, and obedient, making Jesus be known one relationship at a time.

We hosted Back2school at our local church, and this provided for kids in the community the resources needed when going to school. Seeing our kids serve in this endeavor leaves an impression on our heart; it’s a legacy that God is building within our family. As we gave one child a new pair of shoes, the old ones were left with us. The old shoes were beaten, tattered, and worn, much like the lives we are called to reach.
