Leto and Jaya Zacharia

Leto and Jaya Zacharia serve southeast Asia through short-term trips to develop and strengthen the local churches through evangelism, teaching, and humanitarian outreach.

Jaya and I have been a part of missions ministry for over 20 years. Our purpose has been to equip and boost the local church both locally and globally in serving the cause of Christ around the world.

Our focus is currently on southeast Asia where our goal is to equip and build local ministry leaders and churches. We look forward to continuing to serve this region of the world through evangelism, teaching, and humanitarian outreach.

Along with serving as missionaries, we are also engaged in mission work at our local church as Missions and Media Pastors for The Ministry Center in Chattanooga, Tennessee.
