# GAME TIME!

PLACE SIX GROCERY ITEMS ON THE TABLE IN A LINE (MAKE SURE YOU KNOW HOW MUCH EACH ITEM COSTS - ONLY YOU SHOULD KNOW THE VALUE OF EACH)

We are going to play an offering game today! I have 6 items from the grocery store on this table and I have a prize for the person who can put them in the right pricing order.

On one side you'll need to place the most expensive item and the other side the least expensive and then each item in-between will need to be in the correct cost order.

But here is the twist: you'll only have 10 seconds to put the groceries in the right price order!

Then if you don't get it right, the person behind you will get to come up and make any changes to the line-up that they think is right. But they only get 10 seconds as well!

And then the next person gets to try their hand at it! The first person to put each one in the proper price place will get a prize!

Who thinks they can get these items in the right order?

PULL UP 5 CHILDREN TO PLAY THE GAME. NOTE: YOU WILL GO THROUGH THEM RATHER QUICKLY, AS IT WILL TAKE LESS THAN A MINUTE TO COMPLETE. AND CHANCES ARE VERY LOW THAT ANY OF THEM WILL GET ALL 6 IN THE CORRECT ORDER!

# *LET'S PLAY!*

When I say "Go" the first person will run to the table and put the groceries in the order they think is right.

When time is up, quickly move over and head back to your seat so that the next person can come up because we won't be taking time between each one to see which items are in their proper place.

I will NOT be giving any hints about which ones are correct. Which means the next person in line can come make ANY changes they want to the price order.

We will be moving fast, with no breaks between players. Are you ready?!!

"Go!"

# ***GAME ON!***

AFTER THE FIRST PLAYER DOESN'T GET THE CORRECT ORDER, USE LOUD QUICK COMMANDS TO MOVE THE KIDS ALONG AND GET THE NEXT PLAYER TO THE TABLE

Nope!

Incorrect!

Wrong!

Not it!

Keep moving!

WHEN ALL 5 PLAYERS HAVE TRIED AND FAILED, GATHER MORE PLAYERS TO GO THROUGH THE LINE. ADULTS LOVE TO PLAY THIS GAME TOO! ALLOW AS MANY PLAYERS AS YOU HAVE TIME FOR.

RESIST THE URGE!! -- DO NOT GIVE ANY HINTS ABOUT THE CORRECT ORDER.

# ***THE CORRECT PRICE IS...***

IF SOMEONE GUESSES RIGHT AND GETS THE GROCERIES IN THE PROPER ORDER, GIVE THEM THE PRIZE AND THEN MOVE ON WITH THE LESSON.

IF NO ONE PLACES THE ITEMS IN THE CORRECT ORDER IT IS EVEN BETTER AND CAN BE MORE EFFECTIVE FOR THE LESSON POINT.

. The correct price order is....

**PLACE GROCERIES IN THE CORRECT ORDER ON THE TABLE.**

Several players tried to put the groceries in the correct order but it was confusing because what we think is most valuable isn't always correct. Each one of the players had a different idea about what might be most expensive. Then each one saw how the previous failed and so they tried to change it up in hopes of winning!

The reality is, the one who bought the groceries knows the real cost. Since I am the one who paid for these items I know the cost. Now because I shared the information with you, you know the price that was paid and you can share it with others!

This game is a small reflection of how people try to get to heaven. They know that there is a specific price that must be paid for them to get there, but they really struggle to find the right cost. Some will see others try methods that do not work, and then they try something different, but then they end up being wrong too!

When it comes to our pathway to heaven: Jesus is the One who paid the price for us to get to heaven and so He knows the true cost. Once we receive that good news, we can then share that with others too!
